

Orchest Technologies and DCConnect Expand Automation Partnership

Connecting +80 million access points in Latin America to
+6500 endpoints situated in +1000 Data Centers worldwide.

National Harbor, MD, USA - May 16, 2024 - Orchest Technologies and **DCConnect Global** are pleased to announce the expansion of their partnership, aimed at enhancing customer support in Latin America and Asia facilitating global connectivity.

Following successful integration efforts, Orchest has incorporated key components of DCConnect automation, facilitating connectivity to over 6,500 endpoints situated across 1,000+ data centers worldwide. With this new capability, Orchest will be able to connect any of its more than 80 million access points in Latin America to almost any Data Center around the world.

Additionally, Orchest is bolstering DCConnect by enabling last mile quoting in Southeast Asia, commencing with Indonesia, Malaysia, Singapore, and extending throughout the region, facilitating feasibility analysis and address validation in thousands of buildings. At this juncture, DCConnect is now introducing a new Beta Dedicated Internet Access to their web pricing portal. This collaboration leverages the MEF Sonata API to streamline functionalities.

Jeremy Villalobos, CEO of Orchest, expressed enthusiasm about the partnership, stating, "This collaboration marks a significant milestone. Enabling connectivity between any last mile access point in Latin America to almost any data centers worldwide elevate our capabilities to a new level." He added, "Assisting DCConnect in achieving last mile automation in Southeast Asia not only benefits them but also enables us to extend our quoting capabilities from Latin America to the Southeast Asian markets."

Henry Lam, CEO of DCConnect Global, expressed his delight regarding this collaboration, stating, "I am very happy with this partnership. As both Orchest Technologies and DCConnect were recognized as the Best NaaS Provider of the Year 2023 by the MEF Forum in Latam and APAC, this collaboration marks a meeting of excellence. Together, we aim to bridge the continents, uniting the vibrant landscapes of Latin America with the dynamic markets of APAC. Our shared vision is to empower businesses across these regions with unparalleled connectivity solutions, fostering growth, innovation, and collaboration on a global scale."

> About Orchest:

Orchest Technologies is a US-based carrier and pioneer of the fully automated end-to-end customer experience with presence in 17 countries in Latin America and The Caribbean. With more than 10 years delivering innovative Network Solutions, Cloud Connection and Data Center Services throughout the Americas. Over the last 5 years it has rewritten the rules of data transport and connectivity services in LATAM by providing a holistic approach to network intelligence and transparency, groundbreaking process automation, and a world-class customer engagement.

> About DCConnect:

DCConnect Global, a preeminent provider of digital connectivity solutions, harnesses advanced technology and strategic partnerships to deliver reliable, high-speed connections worldwide.
